Spyware Doctor has been downloaded over 125 million times with millions more downloads every week. People worldwide use and trust Spyware Doctor to protect their PCs from spyware, adware and other online threats. Spyware Doctor has consistently been awarded Editors' Choice, by leading PC magazines and testing laboratories around the world, including United States, United Kingdom, Sweden, Germany and Australia. In addition, after leading the market in 2005, Spyware Doctor was awarded the prestigious Best of the Year at the end of 2005 and again in 2006. Spyware Doctor continues to be awarded the highest honors by many of the world's leading PC publications such as PC World, PC Magazine, PC Pro, PC Plus, PC Authority, PC Utilities, PC Advisor, PC Choice, Microdatorn, Computer Bild and PC Answers Magazine. Note: If you are choosing Anti-Spyware make sure you choose one that is proven and has genuine awards from one or more world leading research labs such as PC Magazine, PC World, CNET, PC Pro Magazine, PC Authority, PC Answers and other trusted labs. More importantly do not use ratings from unknown review websites, as often these are designed to mislead you into purchase of affiliated, inferior or rogue product. Detects, removes and blocks all types of Spyware.

Did you know that numerous programs tested against Spyware Doctor detected only small fraction of Spyware and completely removed an even smaller amount? Also most of them were unable to effectively block Spyware in real time from being installed on users PC in the first place. Spyware Doctor has the most advanced update feature that continually improves its Spyware fighting capabilities on daily basis. As Spyware gets more complex to avoid detection by AntiSpyware programs Spyware Doctor responds with new technology to stay one step ahead. Easiest to Use

Spyware Doctor is advanced technology designed especially for people, not just experts. That is one reason why it won the People's Choice Award in 2005, 2006 and 2007. It is automatically configured out of the box to give you optimal protection with limited interaction so all you need to do is install it for immediate and ongoing protection. Spyware Doctor's advanced OnGuard technology only alerts users on a true Spyware detection. This is significant because you should not be interrupted by cryptic questions every time you install software, add a site to your favorites or change your PC settings. Such messages can be confusing and lead to undesirable outcomes such as inoperable programs, lost favorites or even Spyware being allowed to install on the system. We've done the research so you don't have to. Spyware Doctor Full Version Information
